2. No cover applies insofar as and for as long as such cover is opposed by economic, commercial or financial sanctions or embargos of the European Union or the Republic of Austria which are directly applicable to the contracting parties.   - 1.2. immediately inform the insurer about the event insured against;
  - 1.3. provide the insurer with full information about the damaging event and the amount of the loss;
  - 1.4. as far as possible contribute to the determination of the facts, truthfully issue all expedient information to the insurer, and permit any reasonable investigation into the cause and the amount of the obligation to pay, in particular empower and authorise the authorities, doctors, hospitals, social and private insurers concerned with the event insured against to issue information;
- 1.5. ensure that compensation claims against third parties are submitted in due form and in a timely manner, and if necessary assign such claims to the insurer up to the amount of the compensation paid;
- 1.6. in the event that damage has occurred in the safekeeping of a transport company or accommodation enterprise, notify these immediately (observing the limited periods for notification) following the discovery of the damage, and demand a certificate of damage;

- 1.7. in the event that damage has been caused by criminal acts, immediately notify the competent local security service, precisely describing the circumstances and stating the extent of the damage, and have a certificate of the notification made out;
  - 1.8. hand over to the insurer, in the original, any evidence documenting the cause and amount of the obligation to pay, such as police reports, confirmations by airlines, doctors' and hospital certificates and invoices, proofs of purchase etc.
2. In addition to these general obligations, special obligations are set out in Articles 16, 31 and 37.

#### Article 9

##### How do declarations have to be made?

All declarations and information provided by the policyholder, the insured person, or other third parties in connection with the insurance contract require the written form in order to be valid (in writing, but without signature). The declarations and information must be received by the recipient, and must be capable of being permanently preserved by the recipient (by printing out or storage, as in the case of fax or email, but not SMS messages), and the identity of the person making the declaration must be clearly evident from the text. Written declarations and information (with signature) are of course also valid, but verbal declarations and information are invalid.

#### Article 10

##### What applies in the event of entitlements from other insurance policies (subsidiarity)?

All insurance benefits are subsidiary. Insofar as compensation can be claimed in the insured event from other private or social insurances, the latter payment obligations take precedence. The entitlements of the insured person are not affected or impaired by this. If the insured person reports the insured event to the insurer, the insurer will make advance payment and settle the claim on a conditional basis.

#### Article 11

##### When is the compensation due?

The compensation payment is due upon completion of the investigations necessary in order to determine the insured event and the extent of the benefit to be paid by the insurer.

However, the compensation payment becomes due irrespective thereof if the policyholder, following the expiry of two months since request for a cash payment, demands an explanation from the insurer as to why it has not yet been possible to complete the investigations, and the insurer does not comply with this demand within one month.

If the duty of payment has only been established in terms of its basis, the entitled party can demand advance payments up to the minimum amount payable by the insurer on the basis of the nature of the case.

#### Article 12

##### When can insurance claims be assigned or pledged?

Insurance claims can only be assigned or pledged if they have been finally determined in terms of reason and amount.

#### Article 13

##### What law is applicable?

Austrian law applies insofar as is legally permissible.

**Extract from the Austrian Insurance Contracts Act [VersVG]**

§ 6. (1) If it is provided in the contract that in the event of the violation of an obligation towards the insurer which has to be fulfilled before the occurrence of the insured event, the insurer is to be released from the obligation to make payment, the agreed legal consequence does not arise if the violation is to be regarded as non-culpable. The insurer can terminate the contract without notice within one month from the time when knowledge of the violation is obtained, unless the violation is to be regarded as non-culpable. If the insurer does not terminate the contract within one month, the insurer cannot plead release from payment as agreed.

(1a) In the event of the violation of an obligation which is intended to maintain the equivalence between risk and premium upon which the insurance contract is based, the agreed release from payment also only arises in the ratio in which the agreed premium falls short of the premium as provided in the tariff in respect of the increased risk. In the event of the violation of obligations in regard to mere communications and notifications which do not have any influence on the insurer's assessment of the risk, release from payment only arises if the obligation in question has been intentionally violated.

(2) If an obligation is violated which the policyholder has to fulfil vis-à-vis the insurer in order to reduce the risk or to prevent an increase in the risk (irrespective of the applicability of 1a), the insurer cannot plead release from payment as agreed if the violation has no influence on the occurrence of the insured event, or insofar as it has not had any influence on the scope of the payment the insurer is obliged to pay.

(3) If the release from payment is agreed in respect of the event of a violation of an obligation which has to be fulfilled vis-à-vis the insurer after the occurrence of the insured event, the agreed legal consequence does not arise if the violation is not based either on malicious intent or gross negligence. If the obligation is not violated with the intention of influencing the insurer's duty to pay or of adversely affecting the determination of such circumstances as are evidently significant as far as the insurer's duty to pay is concerned, the insurer remains obliged to make payment insofar as the violation has not had any influence on either the determination of the insured event or the determination or scope of the payment the insurer is obliged to make.

(4) Any agreement pursuant to which the insurer shall be entitled to withdraw from the contract in the event of the violation of an obligation is invalid.

(5) The insurer can only derive rights from the negligent violation of an agreed obligation if the policyholder has previously received the insurance conditions or another document in which the obligation is communicated.
